

A TOPSY^{AND}TURVY WORLD

1. In the darkness of the universe's past, through the actions of memory [Book 10], you were given existence and access [Book 30], and you have brought yourself to light as you are today! ...as a one-of-a-kind self-replicating particle of the universe ...as a resplendent illuminatedbeing! [Book 8] ...destined to live in communion [Book 7] with all you have replicated of yourself and for yourself!

2. In communion, you are like a tree growing simultaneously from the bottom up ...and from the top down, ...which is true of all trees! ...though you never realized this before! ...you only thought of trees growing from seeds ..reaching for the sun, getting larger and spreading out, ...and only considered this as trees growing from the bottom up! ...while, all the time, trees are also growing from the top down!

3. All things in life are as you perceive them to be ...and they are much much more than that as well!

4. As an illustration, a self-replicating particle is a particle that creates more particles like itself! ...just as a tree creates more trees like itself! ...oaks create oaks ...and pines create pines! ...and you give birth and body to others like yourself! ...however, a self-replicating particle also creates particles that create the original particle!

5. As a self-replicating particle or scintilla ...or glittering manifestation, you create pastlives [Book 34] which create and substantiate you as you are today! In other words, from the bottom-up, your pastlives and previous doings have made you who and what you are today! ...yet, from the top-down, who you are today makes those lives make you who you are today! ...and they also affirm and substantiate who you are!

6. This is the communion of self-replicating in a bottom-up-top-down world! ...and this is the eternal way! ...this is your way! ...this is what you have sacrificed to live bottom-up unaware of top-down!

7. You seem to understand a little about your bottom-up self and world ...but you have forgotten and neglected your top-down self and world!

8. Like an oak seed, you were given existence and access to growing and developing! ...yet, also like the oak seed, you already had all you needed to grow roots and plant yourself firmly in the ground, ...just as you replicated yourself in the past ...or in pastlives to firmly ground you ...and affirm and substantiate you in your life today! ...therefore, let's consider you from the top-down for a moment!

9. To enliven you as a resplendent illuminatedbeing ...you were given existence in the darkness ...of the darkness... No! ...as a random happening of memory in the universe, you achieved existence in the darkness [P7] ...which enlivened you! ...and, in that, matters changed!

10. As a self-replicating enlivened being, you replicated an illuminatedbeing and a privilegedbeing to act in communion to illuminate your resplendence ...and to affirm and substantiate you!

11. Then, still under the influence of self-replicating, you as a privilegedbeing created a personalbeing and personal activities to act in communion to form you, to firmly ground you, to reveal you, and to affirm and substantiate you!

12. As a personalbeing, you create an ego and a selfimage to authenticate and confirm you!

13. You as a personalbeing have also created a communion of past-future lives and selves to affirm and substantiate yourself today in eternal awareness and realization.

14. You as a personalbeing seek eternalness ...while you as an eternalbeing seek personal expressions!

15. If you understand this, then you realize that whatever you reveal yourself to be, in that, you are, at that moment, creating yourself to be that! ...which affirms and substantiates you are that! ...are you willing to show yourself in resplendent communion ...and be eternally as you show-create yourself to be?

16. In this, are you beginning to realize that everything that is true is certain and reliable ...yet, it is also untrue? ...and you can rely on that!

17. As far as language is concerned, if you grow up from the top-down, you live in a topsy-turvy world! ...are you willing to open your eyes and see how language has deceived you? ...so you can live and experience yourself from the top-down?

18. If so, remember, the universe will always be to you as you are to the universe! ...therefore, in knowing yourself from the top-down, all of life will be top-down in acknowledgment and praise of you!

19. In your personalbeing today, though you sense yourself as a resplendent illuminatedbeing, you have neglected and forgotten this top-down truth of yourself! ...and you struggle endlessly to once again become who you already are! ...and it is that bottom-up struggle alone that outpictures as problems, difficulties, and afflictions.

20. In freeing yourself from bottom-up ...you give up the ability to enliven and express your resplendence! ...and in neglecting your top-down self ...you lose the ability to understand your self and life in a broader, more meaningful and purposeful self and life [Book 6] ...and sacrifice being eternal as you truly desire!

21. The communion of top-down-bottom-up is best expressed as *...if that which is greater than is not also lesser than that which it is greater than ...it is not greater than!* As an illustration, *...love and forgiveness, which seem like top-down actions and concepts actually confine you in bottom-up! Healing also traps you in bottom-up!*

22. The primary meaning and purpose and destination of your self and life today [Book 14, P10] is to resurrect your eternalself and re-create, moment by moment *...and with every belief, thought, attitude, emotion, word, and action ...and every experience, that eternalself as you truly desire to be and live eternally, ...so as to awaken-create and enliven your resplendent illuminatedself! ...for it is in this way that you are to show the ever-renewing universe [1A28] what it can truly be! ...and give meaning and purpose to the universe!*

*It's time for you to live the communion of
your bottom-up-top-down self and life again!*
